

DUST FREE – FLOOR PROTECTOR

Multiple-Layer Spray Booth Floor Protection Film – Heavy Duty

PRODUCT INFORMATION

DF-F-5-W/G/B-40 · V5 (07/26)

NOT A SPECK OF DUST

5 PEELABLE LAYERS

UP TO 12 MONTHS

~150 MICRON HD

MADE IN EU

The world's only multi-layer peelable floor film. An electrostatically charged walking surface captures fine overspray while heavy-duty 150 micron construction handles cars, dollies, lifts and constant foot traffic. NO adhesive on the walking surface – clean underfoot, slip-resistant, and each soiled layer peels off in seconds to reveal a fresh one.

FEATURES & BENEFITS

FEATURE	BENEFIT
Electrostatically charged walking surface	Attracts and retains fine overspray particles settling on the floor
NO adhesive on top – clean underfoot	Adhesive sits on the floor-contact side only; the walking surface stays clean
World's only multi-layer peelable floor film	Peel one soiled layer – no full replacement, no downtime
Heavy-duty 150 micron PP construction	Rated for vehicle and heavy foot traffic: cars, dollies, lifts
Slip-resistant grain surface	Prevents slip hazards from paint accumulation
White, Gray or Black options	Match your booth – darker shades hide dirt between peels
Patented dispenser box with cutting bar	Installation in 50% less time; clean, accurate trimming
Colour-coded layers + embedded measuring tape	Track remaining layers and roll length at a glance

Applications: Spray booth floors · Prep bays · Mixing rooms · High-traffic paint areas

KEY SPECIFICATIONS

Product code	DF-F-5-W/G/B-40
Material	Polypropylene (PP)
Adhesive	Acrylic (same adhesive system as the Wall Protector), floor-contact side ONLY – walking surface glue-free
Top surface	NO adhesive – electrostatically charged, slip-resistant
Colour	White, Gray or Black
Roll size	0.77 m × 40 m
Thickness	~150 micron (heavy-duty)
Layers	5 peelable layers (4-layer on request)
Layer life	~3 months per layer
